

To allow permanent, no-excuse absentee balloting is not only fair, not only wise it may be an essential piece in saving this country from greater division.

If citizens don't feel the government is fair, that voting rights are honored, that they have some say we will see more home grown terrorism.

If the will of the majority is discarded, the nation will turn away from serving the needs of citizens and renewing our commitment to the common good. Autocracy is around the corner.

Pass HB5265.

Kate Wessling, M.D.
